

# SJV Math Club

- Learn how math is used in the real world
  - Solve brain-teasers and logic puzzles
  - Conduct mathematical experiments
    - Work individually and as a team
- Use computers to solve fun math problems
- Compete in math challenges against students nationwide (monthly during our club meeting)
- Compete in MathCounts against local schools (one Saturday in Spring 2018)

The SJV Math Club is designed for students in grades 6 through 8. The Club will meet between 2 and 4 times per month after school or on an evening to be determined by the participants.

If your child is interested or if you have questions, please send an email to Matt Radio, [matthewradio@gmail.com](mailto:matthewradio@gmail.com), or call me at (434)466-1679. Thank you!

FYI: I am the father of Jack (Gr. 7), Eli (Gr. 5), and Lucy (Gr. 1). I teach math at Windward Community College and was the co-coach of the SJV Math Club last year.
